

AMERICAN FORGE & FOUNDRY, INC.™

80 / 50 TON *SUPER DUTY* 2 STAGE AIR / HYDRAULIC AXLE JACK

Model 549SD

- There isn't much that you won't be able to lift with this SUPER DUTY 2 Stage Air Hydraulic Jack, Heavy Duty Trucking, Agricultural, Construction, Military, even Aircraft - this does it all!
- The piston head seal design is borrowed from Industrial technology providing a superior low and high pressure seal, giving this jack a much better hold under severe load conditions
- The extra long 138cm (54") handle can be locked in 3 positions for easy positioning of this jack in hard to reach places.
- An integral Descent Metering Valve maintains a controlled and safe lowering of the load
- Single piece base construction provides superior strength for increased load stability
- Double polished chromed pistons allow for much tighter tolerances which reduce oil bypassing and reduced ram scoring
- Air assisted lowering speeds up ram retraction
- Built in overload safety valve prevents damage to unit due to excessive load
- Comes with 2 extensions (75mm/3" + 45 mm1.75") and saddle adapter
- Units are tested to -13F(-25C) and +113F(+45C) as well as off center loading to ensure a long life under even the harshest conditions

Specifications:

80 Ton (1st Stage)

- Low Height: 230 MM (9.06")
- High Height: 340 MM (13.39")
- Lift - 110 MM (4.33")

50 Ton (2nd Stage)

- Low Height: 230 MM (9.06")
- High Height: 440 MM (17.32")
- Lift - 210 MM (8.27")

- Working Air Pressure
0.8 to 1.2 Mpa (116 to 174 psi)
- Net Weight: 106 kgs (233 lbs.)
- Shipping Weight: 109 kgs. (240 lbs.)
